Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Drawings

1. The drawings are objected to because figures without reference numbers shown in the drawings should be provided with descriptive text labels. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

2. In addition to Replacement Sheets containing the corrected drawing figure(s), applicant is required to submit a marked-up copy of each Replacement Sheet including annotations indicating the changes made to the previous version. The marked-up copy must be clearly labeled as "Annotated Sheet" and must be presented in the amendment or remarks section that explains the change(s) to the drawings. See 37 CFR 1.121(d)(1). Failure to timely submit the corrected drawing and marked-up copy will result in the abandonment of the application.

Specification

Art Unit: 2609

3. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Objections

4. Claims 1 and 3 are objected to under 37 CFR 1.75 because of the following informalities:

The claimed term, "channel L/H," of claim 1 lines 10, 11, 13 and 17 seems to refer the virtual channels L and H. It is suggested to expressly use the language as "the virtual channel L/H".

The claimed term, "the order of which," of claim 3 line 3 seems to refer to the sub-phase 2.q. It is suggested to expressly use the language as "the order of the sub-phase 2.q."

Appropriate correction is required.

Claim Rejection - 35 USC § 112

5. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

6. Claims 1, 2 and 3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

For Claim 1, the claimed term, "the upper rank," of Line 8 has no antecedent basis.

For Claim 2, the claimed term, "the basic modules routes," of Line 7 have no antecedent basis.

For Claim 3, the claimed terms, "the self-packet" Lines 15 and 17 have no antecedent basis.

Allowable Subject Matter

Art Unit: 2609

7. Claims 1-3 would be allowable if rewritten or amended to overcome the rejection(s) under U.S.C 112, 2nd paragraph, set forth in this Office action

8. The following is a statement of reasons for the indication of allowable subject matter:

For claim 1-3, prior art fails to show alone or in combination that the algorithms of selecting channels or routes according to various criteria such as decision based on section of wrap-around-channel travel or channel status of being idle or movement of packet traffic between different channels.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Dally et al, U.S. Publication No 20040160970, Dally et al, U.S. Publication No 20020044560, Lee, U.S. Patent No 7072976, Thorson et al, U.S. Patent No 5659796, Hahn et al, U.S. Patent No 6314487, Thorson et al, U.S. Patent No 5701416 and Thorson, U.S. Patent No 5689646 are cited to show routing algorithms to direct packet in a multiple dimension mesh networks.
